

To Whom it may concern:

I have hired James Foreman 3 separate times to move my machinery. He has always been fair and true

To his word and got the job completed each time. The machinery that he was in charge of moving had

To be taken apart in sections and weighed approximately 200,000 lbs.

If I need to hire another rigging company, I will contact James and give him first option because he was

Cheaper than the other companies and has a proven record with me.

Thanks,

Terry Frey
